

# Guidelines for the set-up and improvement of corporate PMOs

Written by Luca Giraudo

---

Matteo Coscia, partner Projectize, continued his contribution within the PMI-NIC's Italian PMO Observatory participating as speaker in the event “Guidelines for the set-up and continuous improvement of corporate PMOs: from theory to practice”, leading jointly with Mrs. Anna Maria Caccia the session '**Realising the PMO**' where tools and forms to support the setup phase were shared with the audience and feedback gathered.

Projectize is proud to contribute to such important initiatives hosted and organised by the PMI-NIC and looks forward to continuing the activities on the PMO Observatory team.
