

February 25, 2010.

Projectize has been appointed as a management training and support supplier to the United Nations Interim Force in Lebanon (**UNIFIL**).

Projectize has a long history of working with the EU on various economy and development projects. Becoming a supplier to UNIFIL will provide us with the exposure to peace keeping projects, adding to our portfolio of practical project management experiences.

We look forward to a fruitful future of working with the United Nations.
