

Following last year's success of his seminar at the PMI® Global Congress 2010-EMEA in Milan, Italy; Omar Zein, partner at Projectize, has been re-invited by the Project Management Institute to speak at their Global Congress 2011-EMEA to be held in Dublin, Ireland between the 9th and 11 of May this year.

The congress is an annual event organised by the PMI® to address the latest developments in the project management field.

Omar's presentation will be titled "**Business Change within Programmes: It's Not About Transition!**" and addresses the various type of change that exist in programmes and in particular the "business change" that is a side-effect rather than a deliberate outcome and how it is best managed to ensure the programme's success.

For further details about the seminar, please visit the [congress website](#)
