

Projectize is a management support firm specialised in project and programme management consultancy and training.

With headquarters in the UK, offices in Italy and operations in Europe and the Middle East, Projectize has specific industry knowledge covering Financial Institutions, Information Technologies, Manufacturing, Automotive, Editorial and the Public Sector.

At Projectize, we help companies create the right environment for success.

Our partners are PRINCE2 (Projects in Controlled Environment) and PMP (Project Management Professionals) certified, and are active members of the PMI and ISIPM in Italy. They are frequently invited to share their experience at major events and conferences.

We help companies through:

- Delivering the desired results on specific project(s) or programme by providing the right professionals to manage complex initiative to successful completion.
- Improving our clients' project management capability by developing and setting up the right infrastructure within their own organisation and training and mentoring their resources to realise the new capability.
- Implementing the right PM technology and software to serve a specific need and mentoring staff in its proper and efficient use.
- Delivering real business value from projects and programmes portfolio by aligning them to the organisational strategy, and prioritising and monitoring them accordingly.
